Sunny Ugochukwu, Founder
Operation Peace of Mind
383 Perry Street
Lewisville, TX 75057

This letter acknowledges Operation Peace of Mind's advocacy actions in conjunction with *Nothing But Nets* for continued funding efforts that improve malaria prevention, diagnosis, treatment, and research and development.

Operation Peace of Mind staff and Operation Peace of Mind Foundation staff are working with the United Nations Foundation's *Nothing But Nets* campaign in Texas to empower constituents to advocate to their elected leadership in the U.S. Senate and House of Representatives in order to raise awareness around malaria issues and advocate for an increase in governmental funding of malaria prevention programs.

This work is critical due to the fact that the U.S. Government is the largest contributor to programs that combat malaria through its support for The Global Fund to Fight AIDS, Tuberculosis and Malaria and the President's Malaria Initiative, as well as the work of UN agencies like the World Health Organization, UNICEF and UNHCR.

We are grateful for Operation Peace of Mind's advocacy efforts, which build on the amazing progress that has already been made in the fight to defeat malaria.

Daniel Skallman
Senior Campaign Associate, *Nothing But Nets*
